**Easy to use and  
manage!**

## Ease The Load On Your Club Volunteers!

Whatever amateur sport you're involved in, running a club is time consuming and there are never enough volunteers or hours in the day to get the job done.

### No more paper forms!

With **OZESPORT**, you can use one of our many registration forms to collect the player information that you need.

**OZESPORT** forms cater for both adult and children's competitions and can be used for individual and team registrations.

**OZESPORT** forms can also collect medical information and can be set up to display your club's terms and conditions as part of the player registration.

**No specialist skills  
required**

## A Website for Your Club?

No club website? To complement your online registrations, **OZESPORT** can provide you with a professional, yet easy to set up and maintain website, at no additional cost. The club website includes a homepage plus pages for events, information, results and of course, our registration software.

If you already have a club website, and only need the registration software, **OZESPORT** can be easily set up to provide a registration portal only for your club.

Links can be added to direct players to **OZESPORT** for registration and then back to your Website once the process is complete.

Forms and websites can be customised by **OZESPORT** as an additional service with your motto and team logo to make them consistent with your existing branding or website.
